INTRODUCTION

Intro- National Law Policy

ARTICLE I. Introduction to national law, and its governing policy organizing developments by a national people who are denied rights to their nationality, religion, and common practice of law. The solution to post- slavery, genocide, or oppression where the people share the same geographical land mass with an aggressor.

ARTICLE II. Policy to govern the ability for a national people to establish "National Identity", and code of constitution within such nation; separate but equal in the eyes of their oppressors, without conflicting any law.

ARTICLE III. Ability to establish a dejure government, by development of the peace, for all humanity under the practice of monotheism, and worship of the Celestial Being of Higher Power.

---

1). THE GOVERNMENT OF USIC; is an original work of Codified Government Law, which is Compatible for Christian, Muslims, African Americans, Mexicans, Palestinians; or any nations, country and states that are afflicted with failed democracy. This codification; has been established for all races of people who has been afflicted with poverty, failed education, mass incarceration, police brutality, judicial or religious discrimination, and systematic racism, etc.

2). Statistics indicate that 78.3% of people affected with these forms of human rights violations are Christians and Muslims, regardless as to their ethnic back-ground.

3). For the purpose of peace, and the so-called separation of church and state. all religious terminology has been substituted from this codification of law. This legal codification only recognizes the fundamentals of Islam, Christian, or Orthodox Jewish monotheism. The ethics underlying peace shall create the common relations among all people to practice their own religion; absent compulsion, or discrimination, so as such religion falls within the peaceful terms of society.

4). This codification of law, gives citizens afflicted with human rights violations the mobilization to develop for their people, a new government instrumentality established within the legitimacy of a separate, and equal establishment, exercising rights for independence.

5). This codification of law, has the ability to mobilize, or operate parallel with the existing governments currently in power without conflicting any of their laws.

6). This codification of law, shall not have the ability to cause any disruption to any legal current government system.

7). This codification of law, only sets its citizens aside from a current government deemed corrupt, so that the citizens may operate their government instrumentalities without violating the laws of the current corrupted system. In return, giving the citizen their due rights, and securities under a separate protection enacted by its people, for its people.

8) This codification of law is the basis for a complete civil government reform, as to a modern Islamic, and Monotheistic Christian Geopolitical System.

42). In conclusion the Facility shall be closed after the releasing of its detainees whom this GOVERNEMNT holds interest.

§33.2 Black Belt and Mexico Region

1). It has been considered a struggle and a definite importance to proceed in creation of a independent Nation in the particular region of the Black Belt Territory in the United States referred as "The Black Belt".

2). The Black Belt Territory existence because of the political boundary between the North and South established in 1617; which Blacks slave cultivated the land under harsh conditions of slavery developing the United States economic in whole. On January 8, 2018 signed into congress by the United States President Donald J. Trump H.R 1242- 115th congress (2017-2018) recognizing 400 years of slavery of blacks in the country.

3). A geographical region spreading across much of the cotton growing area of the southern united states; The black belt was a strong hold for the southern agriculture heartland, and slavery. Geographically; the black belt is a 300 mile area dividing the northern,and southern states.

4). (See Wikipedia Speacial Field Order No. 15). American Civil War, on January 16, 1865, by General William Tecumseh Sherman, commander of the Military Division of the Mississippi of the United States Army.[1] They provided for the confiscation of 400,000 acres (1,600 km^2) of land along the Atlantic coast of South Carolina, Georgia, and Florida and the dividing of it into parcels of not more than 40 acres (0.16 km^2),[2] on which were to be settled approximately 18,000 formerly enslaved families and other black people then living in the area.

5). The confiscation did not preside because President Andrew Johnson issued a proclamation that returned the lands to southern owners who took a loyalty oath; resulting to the land being issued to white southerners.

6). This fundamental system of Juris Rules and Codes. It shall designate the so- called Negro and Hispanic people. Now referred to as Native Americans, Indians, African American, Moor, or Black to reclaim their land, value in property, and adhere to the direction of this purpose.

Facts and Purpose of Organization

4). Due to the Federal constitutional status of a cruel, unusual, and heinous crime to a human people, chattel and sold into a slave market, for purpose of developing a United States economy. However, the illegal Trans-Atlantic human trafficking brought to the Black Belt territory has authorized those affected by the harmful error; to be recognized as a national people capable of independence. It shall exercise such authority to govern such people in the Black Belt Region of the United States..

5). This Government Organization, United States Islam and Christ(U.S.I.C.) has filed in the County Court, in and for Bay County, Florida(Case No. 1500855CTMA) of the lower Court as established by Law, on or about May 19, 2015 around 9:00a.m., entering its Petition, Reform Codes, Booklets, Articles of Incorporation, Branches, Departments, Publications into the Court of Judge Shane Vann, and his respective Attorney in this case; demonstrating its established principals recognizing its legitimacy in light if a Sovereign Jurisdiction exercising its State of Government within shared land of the United States.

6). It should be made clear in this chapter, that jurisdiction is unjust or unlawful when it exercises its provisions upon a Nationality of People, who are the exculpatory evidence of an unjust and unlawful captivity or enslavement. The ancestry of that Nationality of People who were damaged, were not awarded the right to construct their own provision exercising their jurisdictional faction of Law for their own people, within the land they had lawfully inherited.

7). Moreover, the **International Bill of Human Rights** has recognized that based on such Nationality of People (African American, Blacks, etc.) not having the aptitude of educated ability to construct a viable system of authority based on "Governmental Social Science", designed in a comprehensive reform, corroborated within authority of Constitutional Law. Due to such fate of minorities, law has considered them within the incapacitated state of feeble mindedness.

8). However; due to such facts, of the inability to create a viable government system, the so-called minorities belonging to the ancestry of the history of slavery are forced into the meaning of jurisdiction, of the Federal Government System. Such minorities are not deemed barred from government creation, recognized as sovereignty set apart from Federal System; so long as it maintains its ability to govern its Resident(s) and Member(s) within limits set by the constitution of the International Bill of Human Rights.

9). The descendant(s), as to the unjust conditions avers; that their lawful jurisdiction has been expelled, and it is unable to be recovered. That the Federal Government lacks the ability to govern without prejudice, due to its geopolitical system constructed in the betterment of the "British Accreditation" (B.A.R.), and to its own supposed royalty, whose ancestry were the evident cause of jurisdictional devastation of Negus Dynasty, which were the original Hebrew people and has been identified as a "Classified Ethnic Group" in America, and world wide. **See** Public Law. 114-49 approved 8-7-2015 § 70502. Purposes. **See also** Public Law 102-14(1991).

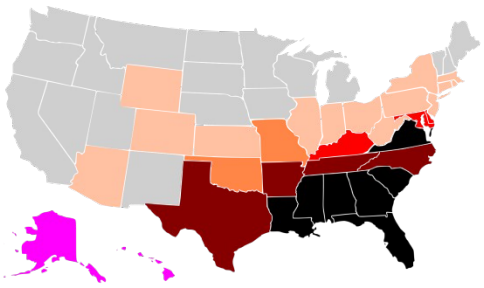
10). Within collective understanding of rights, it becomes pertinent that a viable geopolitical system must be founded by the "Juris Government". Such minorities, within the limits set by law; having agreed to orchestrate their Chapter(s), Branch(s), Department(s), Agency(s), and Articles of Independence, for purposes of Government creation, within lawful inherited jurisdictional shared land to be incorporate in the Black Belt Region of the United States.

<u>The Instrument of Government Creation</u>

11). To establish a new country, the country must first satisfy the international laws; rules that all free countries generally acknowledge, and follow set forth by the *Montevideo Convention on the Rights and Duties of States*, adopted in 1933.

12). However such impractical measures of institution has been fundamentally viewed nonsensical due to the inability to claim such status of right without the proper legal implication as to the "Montevideo Convention on Rights and Duties of State", signed on December 26, 1933; which implicates as follows.

(I). **<u>Article 1 implies</u>**: The State as a person of International Law should possess the following qualifications:



a). A permanent population.
b). A define territory.
c). Proper government reform.
d). Capacity to enter into relations with other States.

13). Moreover, the Government of USIC has choreographed its obligation, and delegation as to its aim and purpose of its Nation; which shall constitute a sole person in the eyes of International Law (see *Montevideo Convention on Rights and Duties of State: Article 2 page 3*).

14). The focus constructed for the nationalized state exist, for the establishment of exercising of peace correlations between THE GOVERNMENT OF USIC established in the Black Belt Region, and the Federal Government operating outside the Region. In retrospect to growing conflicts in the region, which ultimately lead to a failure of trust indicated by THE GOVERNMENT OF USIC.

15). It is necessary for peace relation to proceed by a detached organized government body with the aptitude of understanding both, cultural relations, and economic development, and National Security for the interest of the Nationality of people being oppressed. Thus, the Federal government is unqualified in meeting the burden in providing application of law, to allow (African American, Black, Negro ect.)to determine their own future. Federal government has only suppressed its means, due to fear of the ability to establish its sovereignty in this particular region.

16). It is also necessary in the development of a Neighboring Environment, a neutral body in the construction of dialogue. It is important to expound, that the Government of USIC has the particular interest in this development of this region, because of the populace of its citizens are general described as the same genetic makeup and cultural product of orthodox Muslims, and Christian people of religious values as of the Christians of ancient Abyssinia in the year 7 BH (615 CE) (9 BH (613 CE). Moreover, the Federal Governments oppression towards its supposed freed slaves has continued to the present day. The Federal Government leads the World statically in the incarceration of all people; But an astounding percentage of Black Americans are incarcerated indefinitely, or extended sentencing for non-violent offenses, or offenses not recognized by divine law, but not limited to

a) The Federal corporation fails to overturn its Supreme Court Ruling as to the status of blacks in America. White America has Asserted that after the civil war in April 1865; the 13th and 14th Amendment overruled the Scott Decisions. Nevertheless; the Jim Crow laws were upheld in 1896 in the case of *Plessy vs. Ferguson*, in which the U.S. Supreme Court laid out its "separate but equal" legal doctrine for facilities for African Americans. Moreover, public education had essentially been segregated since its establishment in most of the South after the Civil War in 1861–65, and continued until 100 years.

b) No legislation drafted by a White Supremacist Corporation, expressing in detail; that Black, African American, or decedents of slavery are citizens of The United States.

c) Based on facts that true freedom has never been legislated in detail, than the assertion that Black; African American are citizen of the United States is absurd. That the reality of the matter is that American blacks are Hebrews of the Biblical scripture, and were forced to entered another form of slavery. Which they believe they are free, but in actuality they are in bondage. Meanwhile, the self proclaimed royals steal the wealth of the true Children of Israel, which the Prophet Muhammad (pbh) had established in at the Ka'ba, while while supremacy simultaneously proclaim the Khazarian Nomads as the Holy Tribes of Israel.

See (Are Jews White:The Atlantic)

(see) **Dred Scott v Stanford 60,U.S.(19) 393 (1857).** The Court decided that free or a slave, blacks in the United States were unable to petition for freedom and that the United States Federal Constitution had never and ever be constructed on the behalf of black people; nor can they be citizens of America. This law has never been amended, overturned, or expressed in the contrary. (see) (Shepards Citations).

17). The United States has less than **five percent** of the world's population. But it has almost a quarter of the world's prisoners. Indeed, the United States leads the world in producing prisoners, a reflection of a relatively recent and now entirely distinctive American approach to crime of aggression.

18). In order for the GOVERNMENT OF USIC to develop and maintain an legitimate independent nation, it must exercise its authority in concert to the Federal Defacto Government of the United States.

(Judicial Note § 33.2(18) In order to be instrumental for a newly established democratic republic, such government must be constructive for its people and establish peace relations between boarding nations in cohesive nature.

19). It is important that the Government of USIC establish fare and transparent conclusive legal reform addressing.

a). Sensation of Hostility.
b). Freedom of Movement.
c). Reform of Laws on Security.
d). Press and Publication.
e) Voluntary Humanitarian Effort.

20). Recognition of a nation merely signifies that the state which recognizes it accepts the personality of the other with all the rights and duties determined by international law. Recognition is unconditional and irrevocable.
(see) *Montevideo Convention on Rights and Duties of State: Article 6 page 4)*

21). We shall emphasis on the fundamental element of pre-dialogue after a collective development of National Embassy.

22). Such pre-dialogue shall focus on.

a) Confidence, building measures, and decision making.
b). Defining the role actors in the dialogue.
c). Timeline in the dialogue.

23). The Government of USIC shall use the instrumental reform located in this Chapter to implement the direction for civil society to participate, and lead such dialogues. Such chapter will develop for such civil society the ability to monitor the outcome of such dialogue, rendering a shift of power into the hands of its Citizens.

Rights to Nationality

24). Based on the establishment of a dejure government creation in the Black Belt Region of The United States, it shall be established on fundamental element that all people sustained in connection with rights given to all members of civil society shall be deemed the nationality as" Believing Men, and Believing Woman". The literal translation of the word "Believer" in the Natural tongue is *Mu'min*. The People shall decide as to the name of the establish land. Unless deemed otherwise.

(Judicial Note § 33.2 (24) Any nationality entering legal application into the citizenship of the region and upon approval, shall maintain its status of nationality unless one chooses to omit. There shall be no separation of nationality based on heritage or complexion of one's skin.

(Judicial Note § 33.2 (24)(I) That Nationality shall not be foundered on the bases of ethnicity, race or geographical location, but established upon bases of common culture, practice, and application of the law.

The people shall possess the ultimate authority to construct churches, mosque, and synagogues within the respective state endowed.

(Judicial Note § 33.2(29) Civil society shall possess an ultimate goal that there shall be no compulsion, or prohibition of rights to free practice of recognized religion.

30). Due to the existence of multiple free state of government residing with the Black Belt Region, and that it has been recognized that all Black Natives who's ancestry were slaves in the region are "Black Americans". The people of those Free State shall adopt its registration system that upon full faith and credit one shall enter into, or may reside therein under the protection of due rights and peace.

Religious Cultural Integration

31). Due to the separation of States history has shown a fundamental establishment of an isometric war, by the oppressive government which in result creates genocide of ethnic, and social, and religious freedom. In recent times, rival wars exploded into disagreements of policy between nationalities or religious sects.

32). The establishment of Embassy of The Government of USIC shall create through its policy the development of religious education, on the grand ethics of its true proscription and application. It is a must, that a diverse educated reform shall generate for all states the capability of understanding the history and proper application of religious adherence.

33) The Embassy shall create a diverse atmosphere as to imply a religious base of information categorized into departments. As a result, it shall establish peace for all states residing within the region, through the participation of educating government officials on the fundamental rights of religious tolerance.

ACKNOWLEDGEMENT

A development for the Humanity

This codified law work has been an effort in the reshaping of nations constricted under civil war, civil unrest, or civil disorder. It allows Nations to transition into a universal peaceful resolution. It encourages order under the rule of peace and tranquility. Thus, it provides relief to civilians or citizens who have suffered from the hands of oppressive government authorities. It shall transform citizens into an arm of authority to govern their own affairs, separate and parallel from its current system. Allowing citizens to hold enforcement to those accountable for crime of aggression, in a fair and unbiased system of justice.

Nevertheless; is this literary work intended to be used to as revolutionary war, or to overthrow, outstrip or relinquish lawful and peaceful government jurisdiction. Such direction is only to give lawful direction to revolutionary resistance that has been isometric-ally developed through a system of oppression.

This work is an effort of unity between Orthodox Jews, Muslims, Christians, all nationalities, and cultures to come together in peace, defining the common enemy to human way of life. Moreover, we shall overcome our differences and provide our offspring the example of truth, using the consciences of our true learned elders; Abraham, Isaac and Ishmael. We shall develop the fundamentals from their offspring Jacob, David, Jesus, and Muhammad. May God be with us, and guide us in His proper direction.

Without a proper system of Government Reform, there will be no guidance only chaos that inevitably disrupts our society.
